

Harmony School at Princeton Forrestal Village

Plainsboro, New Jersey

The Gale Construction Company was pleased to be selected as the Construction Manager for this new 9,364 square foot facility in Princeton Forrestal Village for Harmony School. This school is an early childhood education center and day care facility with classrooms for infants through pre-k children. The classrooms have children's bathrooms and countertops with sinks. The construction is wood frame on concrete slab-on-grade. The exterior facade is fiber-cement board siding and trim, along with aluminum clad windows and doors. The building includes covered porch areas with ceiling fans and fenced outdoor play area complete with bike path and equipment. The expansive window areas allow for natural light and ventilation. This new pre-school building is scheduled to be complete August 2010.
